Here's What's Happening

JUNE 2011

**145th Place SE: SE 16th Street to SE 24th Street &
SE 22nd Street: 145th Place SE to 156th Avenue SE,**

Phase II

Construction Ahead

Project Need: This project is a continuation of the roadway improvements we made on 145th Place SE from SE 8th Street to SE 16th Street in 2007, with the goal of improving access for bicyclists and pedestrians and providing a safe and efficient transportation system that supports livable neighborhoods.

Planned Improvements: We will be adding five-foot-wide bike lanes and six-foot-wide sidewalks on both sides of the roadway, a two-way center left-turn lane, planted median islands, irrigation and landscaping. We will also be improving the traffic signal and the curb ramps at the intersection of 145th Place SE and SE 24th Street and adding a six-foot-wide sidewalk on the north side of SE 22nd Street, where missing. Other project improvements include a new storm water conveyance system, street lighting, and two new mid-block crosswalks.

Environmental Stewardship: Because we balance our built environment with protecting Bellevue's natural areas, we will be implementing natural drainage practices that will treat and infiltrate the storm water runoff within the project site. This is one of the first major capital improvement projects and it is a "pilot" project to incorporate rain gardens, bio-retention swales, and a pervious concrete sidewalk.

Construction Schedule: Construction will occur Monday through Friday from 7 a.m. to 6 p.m., and Saturday from 9 a.m. to 6 p.m. We will start June 1 with an expected completion in Summer 2012.

Tools to keep you moving. . .

To obtain up-to-date weekly construction information, please refer to:

www.bellevuewa.gov/traffic_advisory.htm

To obtain specific updates about where and when construction activities will take place, please refer to:

www.bellevuewa.gov/145th_improvements.htm

On this webpage, please sign up for E-alerts to receive notification by email of construction updates.

For your convenience, we plan to update this webpage once a month until the project is complete!

Pedestrian Detour: To keep pedestrians safe from all of the construction activity, a pedestrian detour route has been developed. Essentially, you will walk on 148th Avenue SE to reach SE 16th Street or SE 24th Street, instead of using 145th Place SE for the duration of the project's construction. We apologize for the inconvenience; however, your safety is our number one concern.

Be Aware of Changing Conditions: We will need to close 145th Place SE up to two separate times and we will notify you of this (with a newsletter similar to this one).
